

# VIRTUAL SEMINAR

We are happy to invite you to attend a virtual Douglas Research Center seminar that PEPP-Montreal is hosting with the guest speaker Alban Voppel, PhD, currently working with Dr. Palaniyappan at the Douglas Research Center & McGill University, originally from the University of Groningen, Netherlands.

He will be presenting a range of results looking at the relationship of “Language Models and Psychosis” while giving an overview of what quantified language measures can be used for in psychosis research, which was performed from the last few years.

**ALBAN VOPPEL**
