

CALL FOR PARTICIPANTS

Dr. Beaulieu and his team are studying **BIPOLAR DISORDER**

CBD for Bipolar Depression

We are looking for people diagnosed with bipolar disorder to participate in study to assess the efficacy of CBD in treating bipolar depression

Who can participate?

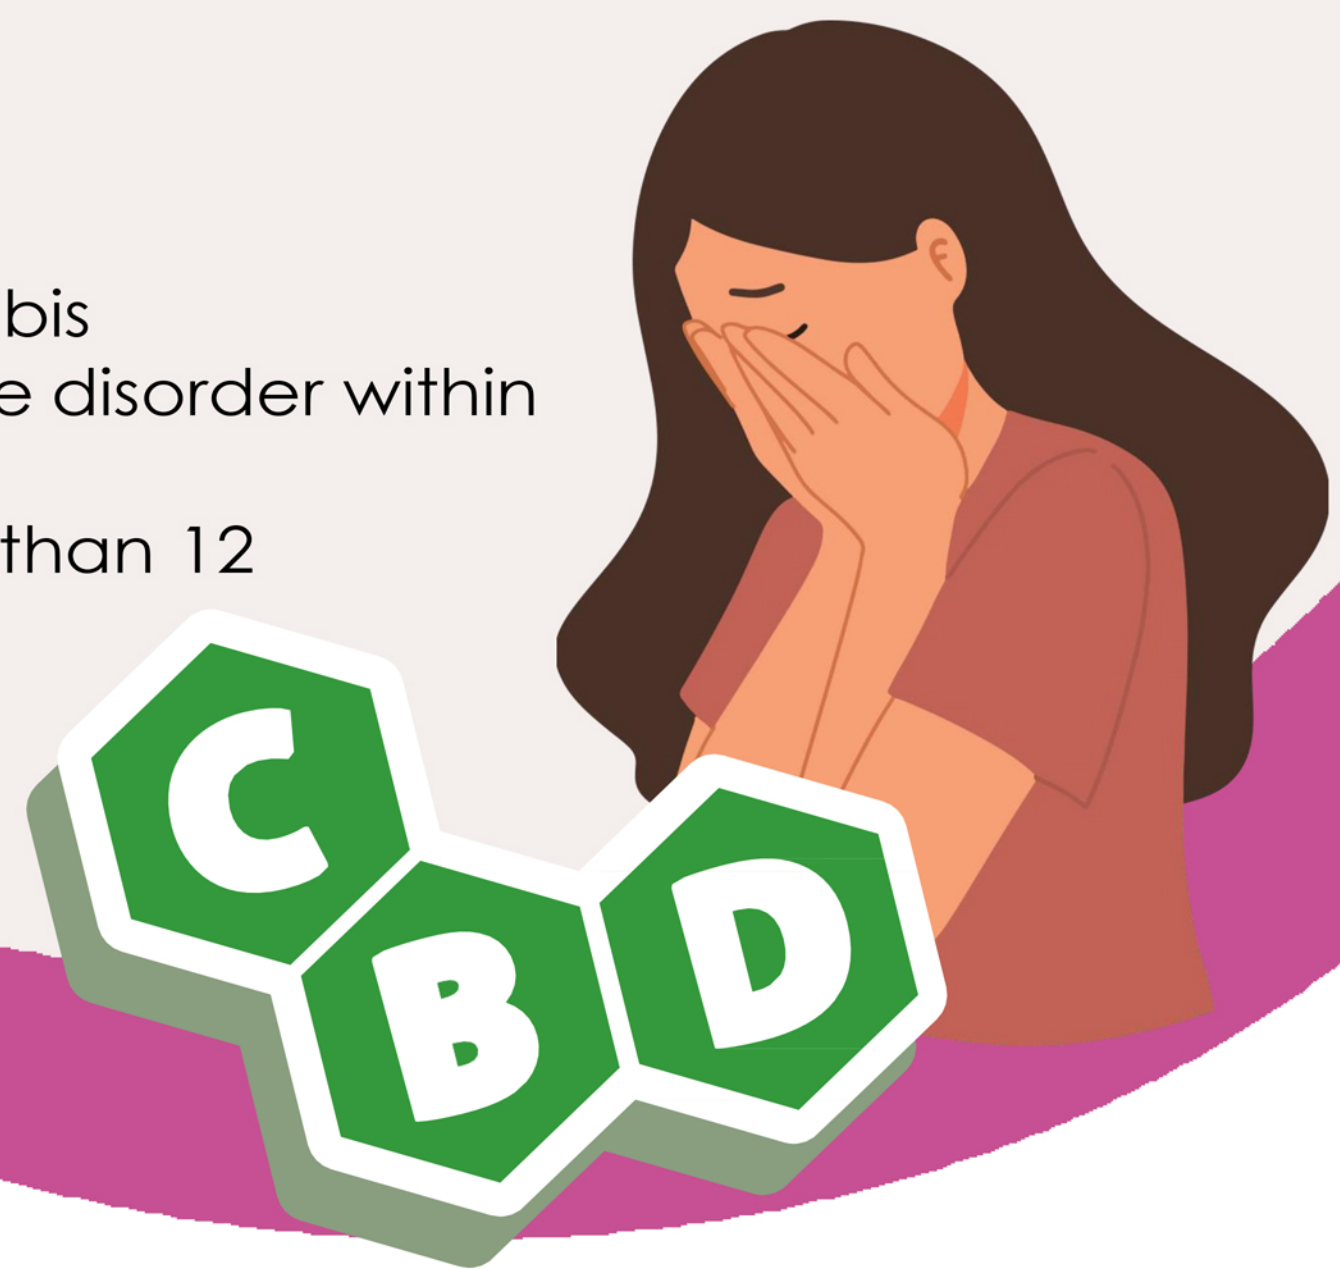

- Aged 19 to 70 years inclusive
- Bipolar Disorder (Type I or II)
- Must be taking a mood stabilizing medication
- Currently experiencing a depressive episode

What does it involve?

- Being prescribed and taking CBD
- Regular clinician follow-ups
- Cognitive tests and questionnaires
- Physical exam and bloodwork
- Up to 10 weeks in duration

Not eligible if:

- Current or past month daily use of CBD/cannabis
- Have met criteria for an alcohol/substance use disorder within the past 6 months
- Current depressive episode has lasted longer than 12 months
- Are pregnant or lactating (or plan to be)

Compensation will be provided for your participation
